

## Steps to Log Into Apple iPad (even if you are not an apple user/have an Apple ID)

1. Turn on – Top Button (Right)
2. iPad will prompt you
3. Select Language
4. Select Country
5. Select Appearance (default)
6. If you have Apple products can synch OR not. May choose “Set Up without Another Device)
7. Connect to WiFi (It may take a few minutes to activate IPAD)
8. Data Privacy Notice
9. Choose Set Up for Myself
10. Choose Fingerprint set up or your own password (to get into the IPAD)
11. Transfer Data from another device (if you want for skip) and choose “Don’t Transfer Anything”
12. Apple ID (if you have one) OR, Choose “Forgot password or do not have an Apple ID)
13. Create one or set up later – If you choose set up one complete – Name and Birthdate (have to scroll back with back arrow)
14. Add an email address (can create a new gmail etc. if you do not have an email or wish to connect this to another email account.
15. Create your Apple ID password (this is to approve apps etc.)
16. Add a phone number – choose text or call
17. A verification Code will be sent to that number or called to you
18. Review terms and agree if you agree
19. Then make choices about things like location services, sharing analytics etc. Not sharing these details does not impact using the IPAD
20. If at anytime you want to remove your registration information you can by clicking under settings and opting to “transfer or reset Ipad”
